## COVID-19 Weekly Update

Group Number(s): 143735,659552,737415,866354

Actual paid claim amounts may vary from this report once claims are finalized. The information in this report is intended to provide weekly insights as a leading indicator based on the information available, which may differ from final results.

**Data in this report is from March 1 to current (excluding graphs)**

### Why use this report...

Stay informed about potential COVID-19 claims activity and volume with insights from the Weekly COVID-19 Update.

In advance of the detailed Monthly Analytic Report, on a weekly basis you will have insight into Coronavirus-related data including:

- Weekly test volume
- Weekly claimants
- Adjudicated claim amounts

In addition, the weekly update provides information on:

- Telemedicine related claims (COVID-19 as well as non-COVID related services)
- Overall medical claim activity

Weekly Updates contain high level information on overall claims and telemedicine claims (both Coronavirus and non-Coronavirus) to provide insight into pattern changes. COVID-19 Monthly Reports more fully explore the types of services and population being impacted during the pandemic. We will continue to refine and expand the data within these views as we monitor changes that may impact the analysis.

### Things to consider when reviewing the data...

**Reporting is based on the primary diagnosis code on a claim**

Standard codes and coding guidance have rapidly evolved. While health care institutions adjust to new codes and coding changes, claims may be understated based on:

- Provider variance in understanding billing guidance
- Inability to confirm diagnosis due to testing limitations
- Test results received by provider post-claim submission
- No claim submission (e.g., testing covered by public health entity or inpatient)
- Claim submission prior to the introduction of COVID-19 specific ICD-10 codes

Claim counts in this report represent the number of claims processed each week. If a claim is paid in one week and then adjusted in a subsequent week, the claim will be counted in each week

### What codes are used in the weekly update....

The following diagnoses and procedures are used to identify likely COVID-19 related claims in this update:

**COVID-19- Specific Diagnosis Codes** - New World Health Organization codes for COVID-19 cases released April 1, 2020. Widespread adoption expected to take time:

**U07.1** - COVID-19 confirmed cases

**U07.2** - Unconfirmed suspected cases not expected to be billed.

**Coronavirus Diagnosis Codes** - Providers were guided to bill these in the initial outbreak:

**B97.29** - Other coronavirus as the cause of diseased

**B34.2** - Coronavirus infection, unspecified

**Exposure Diagnosis Codes** - Pre-existing codes used for COVID-19 screenings and for non-confirmed/non-presumptive cases. Because these codes may also be used for suspected exposure to other biological agents and viral communicable diseases, some billing may be for non-COVID related scenarios:

**Z03.818** - Suspected exposure to other biological agents ruled out

**Z20.828** - Exposure to other viral communicable diseases

**Testing Procedure Codes** - Codes used to identify COVID-19 and antibody testing: **86328, 87635, 86769, C9803, 0202U, U0001, U0002, U0003, U0004, G2023, G2024**

**Telemedicine** - Metrics include Teladoc as well as community based providers performing approved telemedicine services

**These codes represent our current best efforts to identify likely COVID-19 activity, reflected in this update.**
